Built for your life

Appliances • Sinks • Taps
October 2017

ISO9001 accredited

FS 532687

CDA have achieved ISO9001 accreditation, recognising our commitment to continuous improvement.

Why choose CDA?

Our assurance of quality

Our on-site testing laboratory ensures that only safe, reliable products are brought to market. We test to the British consumers' exacting standards without compromise.

Dedicated engineers

We use our own dedicated service engineers, equipped with a large range of CDA spare parts allowing them to achieve an excellent first time fix rate.

In-house Customer Care Department

Our in-house Customer Care Department, based at our head office in Nottinghamshire, is made up of highly knowledgeable and experienced staff who will support you throughout the lifetime of your product.

Over 25 years experience

Established for over 25 years, CDA have built a reputation for stylish, innovative and award winning products that consistently deliver outstanding results.

More deliveries to you

CDA delivers to retailers & kitchen studios daily so your new appliances will arrive quickly. All of our stock is held between our 9 acre site in Nottinghamshire and an additional warehouse in Newton. These central locations are ideally located to ensure efficient and fast distribution across the UK.

Part of the Amica group PLC

In December 2015, CDA became part of the Amica Group.

Amica, a kitchen appliance manufacturer based in Poland, operate in 50 countries worldwide and have over 70 years' experience in the industry.

CDA share the same vision of providing the best products possible, as well as our values of good environmental practice, and together we will deliver even more for customers.

Our guarantee

All CDA appliances are covered by a 5 year parts and 2 year labour guarantee for complete peace of mind.

“Quality is something we respect and strive for in our products, our people and our service. Our reputation is built on delivering genuine quality through those three foundations every single day.”

Ian

Ian Kershaw
CDA founder and Chairman

Oven functions explained

Oven light

This illuminates the oven cavity for easy viewing of food during cooking.

Defrost

Using the fan only, this oven function circulates the air around the oven cavity, speeding up the natural defrosting process.

Conventional oven

This function uses the top and bottom heating elements only. Natural convection creates a perfect cooking zone in the centre of the oven, ideal for dark fruit cakes and pastries.

Fan-assisted oven

Using the fan to circulate the heat produced by the top and bottom heating elements, this function distributes the heat around the oven to give an even temperature throughout.

Fan oven

Using the circular heating element and the fan, this cooking function circulates heated air around the oven cavity; temperatures are achieved quickly reducing the need for preheating. Both cooking temperature and cooking time can be reduced for a more energy efficient cooking programme. This is perfect for cooking various food types simultaneously as foods are sealed quickly to prevent flavour transfer.

Fan cooking with lower heat

Using the fan element to enhance the main heat being produced by the lower heating element, this function is perfect for cooking pizzas.

Fan cooking with upper heat

Uses the fan element and the top element to create a gentle heat, ideal for reheating already cooked foods or keeping food warm.

Fan with lower heat

The fan circulates the heat produced by the bottom heating element, ideal for one pot dishes such as casseroles or curries.

Browning oven

The perfect finishing touch, using the top element only this function browns and crisps food with conventional heat. This is ideal for cauliflower or macaroni cheese.

Warming oven

Using heat produced only by the bottom element, this natural heat is perfect for dough proving and blind baking.

Clean function

Using the eco-clean programme setting, the oven will heat the cavity to around 250°C, loosening grease effectively avoiding the need for harsh oven cleaner chemicals and unnecessary hard work.

Full grill/Half grill

This fully variable grill is ideal for grilling a full family meal.

Some ovens offer a half grill option, using just the centre section for grilling smaller quantities.

Turbo grill

This fully variable grill reaches higher temperatures than a standard grill, ideal for finishing off a crème brulee topping for example.

Fanned electric grill/
Half fanned electric grill

This uses the grill element and the fan to circulate the heat around the food.

Some ovens offer a half fanned grill option, using just the centre section for grilling smaller quantities.

Rotisserie electric

Using the grill element, heat is radiated down on to food which is rotating on the rotisserie aiding even browning.

Rotisserie fanned grill

For fast, even cooking, the fan circulates the grill heat around the food as it turns on the rotisserie, creating a perfect crispy finish.

Rotisserie conventional

Using both the top and bottom elements ensures even cooking when using the rotisserie, ideal for pork, chicken and beef.

Steam oven

Cooking with the power of steam alone locks more nutrients into your food. Steaming is the healthier option for cooking meat, fish, vegetables and fruits.

Pyrolytic cleaning

This function raises the temperature of your oven to 450°C, reducing any food deposits to a fine ash which can then be easily wiped away from the oven interior.

Full pyrolytic clean - 2 hours.

Gas oven

Heat rises from the gas burner at the base of the oven. This method of cooking (hot at the bottom, cooler at the top) is perfect for family meals, as foods can be cooked at different temperatures at the same time.

Gas grill

This variable gas grill is used with the door ajar, giving you perfect results when grilling chops, burgers and sausages.

Rotisserie gas

Our gas range cooker offers a rotisserie option, using either the grill or oven.

Fanned gas oven

Heat rises from the gas burner at the base of the oven and is distributed by a fan, creating an even cooking temperature.

Microwave function

Food is cooked from the outside in using microwaves, making this style of cooking quick and convenient.

Microwave and grill

Food is cooked from the outside in using microwaves with the added feature of the grill browning the food.

Microwave and fan oven

Food is cooked using microwaves and browned on the outside by the fan oven.

Range cookers

Our contemporary range cookers are designed to be beautiful in both form and function.

All electric, all gas or the best of both with a professional style gas hob and multifunction electric ovens. There is a choice to suit every cook in any kitchen.

Multi-function

Every range cooker in the collection has been designed to combine good looks with outstanding performance. Our multi-function cooking technology has been applied to the range cookers to offer you flexible cooking styles and functions and make them truly capable cooking workstations.

90cm traditional range cookers

Our 90cm traditional range cookers offer a more classic aesthetic in a choice of cream or black. Both models are a dual fuel configuration with triple oven cavities and come with a built in splashback.

Useful accessories

Useful accessories such as plate warmer racks and space saver shelves make CDA range cookers the perfect choice for keen cooks. There are telescopic shelves to help with getting food in and out of the oven safely and catalytic liners that will keep your oven cavities cleaner, cutting down on maintenance and cleaning time.

The RV1200 range cooker comes with an aluminium pastry plate, as show below. Please see the accessory section for our full range of optional accessories.

Quick guide to range cookers

Our collection of range cookers offers a wide variety of sizes and configurations:

- All gas, all electric or dual fuel models available
- Sizes from 70cm to 120cm wide
- One, two or three oven cavities
- Five or six hob burners or zones, with an additional griddle plate hob available

Our all-gas range cooker has:

- Automatic ignition
- Flame failure safety device - a feature designed to close off the gas supply in the event that a burner is accidentally extinguished
- LPG conversion kit included

We understand that your oven needs to do more than just cook food well. That's why we've combined stunning new designs with the best cooking performance possible. With our wide range of ovens, including pyrolytic, touch control and gas models, you are guaranteed to find the perfect oven for your home.

Single ovens

Our expertise in appliance manufacture means that whichever of our many stylish models you choose, you can be certain of high performance, advanced technology and, of course, reliability.

Stylish aesthetics

Our range of single ovens offers considered design features that will complete your kitchen perfectly. From ergonomically designed control knobs to brushed steel finish door handles and side strips, whichever model you choose, you can be sure that every detail has been deliberated to bring you the best in function and style.

Large capacity ovens

CDA's range of single ovens, SK110, SK210, SK310 and SK410, features an extra-large cavity with a gross capacity of 80L. In real terms, this extra usable cooking space, plus additional shelf positions, will allow you to achieve better cooking results with more food in the oven at the same time.

The range features an energy rating of A and built in safety features, such as anti-tilt shelving to reduce accidents removing hot food from the oven, as standard.

With extra shelf positions available on the SK110, SK210, SK310 and SK410 oven models, up to 6 trays of cookies may be baked at once. This extra space means that you will also have no problem roasting a joint of meat, potatoes and vegetables together for a special family meal.

Extra large cavity

Cutting edge style,
performance and reliability

Our touch control models, the SK410, SK510, VC801, VK702 and VK902, have discrete icons that are illuminated and clearly visible when in use but barely noticeable when not, leaving an uninterrupted clean line across your integrated CDA appliances.

Easy clean enamel interior

Our ovens have a smooth, easy clean enamel interior. By using the highest grade of enamel during production, the oven walls are less porous and therefore much less susceptible to absorbing grease and residue from food whilst cooking; this results in an easy to maintain oven with effortless cleaning.

Self-cleaning

Spend less time on chores by choosing a pyrolytic oven. The self-cleaning programme will allow you to get on with other things whilst your oven 'cleans itself'. The programme works by automatically locking the door, for your family's safety, and heating the internal oven cavity to over 450°C to incinerate residual cooking fat or spills to a fine ash. All you need to do is simply wipe away the small amount of ash from the bottom of your oven after the cycle has finished. What's more, running a pyrolytic programme costs around 45p; much cheaper than branded oven cleaners.

Offset lateral halogen lights

Offset lateral halogen lights

The halogen lighting inside the SK310 and SK410 models provides clear illumination whilst cooking, allowing you to easily check the progress of your meal. By removing the need to open the oven door during cooking, an even temperature can be maintained to produce perfect results every time.

Cool door with removable glass

The SG120, SK110 and SK210 come with double glazed doors with removable inner glass for easy cleaning. The SC620, SK310, SK410 and 6Q5 are fitted with triple glazed doors and the SK510 pyrolytic oven is quadruple glazed. This enables the door to remain cool to the touch when cooking at high temperatures.

Design, innovation and passion are at the heart of everything that we do. Our products are manufactured using the highest quality materials to form the centrepiece of your kitchen.

Quick guide to single ovens

CDA offer a choice of designs and features to meet a broad range of tastes.

Products with this icon have a huge 80L gross capacity providing plenty of room to cook for the whole family.

 - 1 grill pan with grid
 - 2 grill pan handles

- Optional accessories**
- Catalytic liners (3 piece), C9OL
 - Pizza stone, ACG10
 - Glass oven tray, ACG20

Compacts

A range of useful and innovative appliances to add functionality and that special finishing touch to your kitchen.

Build your personalised cooking space by combining any of our compact appliances. Choose from steam and grill, combination microwave and grill, fan oven or warming drawers to suit your needs.

Steam cooking

Now with full touch control, the VK702SS offers healthy, vitamin preserving cooking at home. The refillable reservoir means that there is no need to connect to the mains water supply and the combination grill allows you to brown food for an appetising finish.

Compact ovens

Our compact range offers a steam oven and a compact combination model. The VK902 provides a grill, microwave and a fan oven all in one neat space, making it the perfect choice for kitchens where space is limited.

Drawers

A warming drawer is ideal for warming plates, proving bread, melting chocolate, making yoghurt or keeping dishes and cooked food warm. These are so useful that once you've had one you'll never want to do without!

Choose between a 'push-push' open and close action, where you press the drawer surface to make it slide open and again to close it, or a traditional ergonomic handle design to finish your kitchen.

Compact coffee maker

The VC801 automatic coffee maker will make mornings worth waking up for. This built-in 60cm coffee maker brings CDA's sleek styling into your kitchen design whilst offering superb features and functions. It comes with full touch control, multiple grind settings along with adjustable coffee strength and quantity for your perfect hot drink. You can use coffee beans or pre-ground coffee with this machine making it truly flexible to your lifestyle.

Quick guide to compact cooking and microwaves

These versatile compact appliances look stunning when installed together as a bank. Install warming drawers beneath for ultimate cooking flexibility.

We have a choice of microwaves to suit your requirements - freestanding or built-in options are available.

Compact refrigeration

Please see our refrigeration section for the following compact refrigeration products:

FWV451

- Built-in compact wine cooler - See page 137.

BVB4

- Built-in draught beer dispenser - See page 138.

Double ovens

Available in both built-in and built-under options, CDA A rated double ovens offer a winning combination of extra cooking space and outstanding features.

Programmable timers on all double oven models allow you to automate cooking times, leaving you to get on with everything else.

Double ovens

DC740 and DC940 double ovens

Choose between the DC740 & DC940 for useful extra cooking space at either an under counter 'built-under' or eye level 'built-in' height and design your cooking space around you.

DK751, DK951 and DK1151 double ovens

The DK751, DK951 & DK1151 models sharpen up the styling with black glass that is opaque until the internal light is switched on, providing uninterrupted clean lines throughout your kitchen when you are not cooking. With multi-function main ovens on these models you will have more flexibility in cooking style at your fingertips.

DK1151 double tower oven

Our double tower oven, the DK1151 offers the flexibility of two full size single oven cavities combined into one appliance. What's more, each oven may be individually controlled and comes with full multi-function cooking options.

9Q6 Q-style double oven

Our Q-style double oven can be matched to a four or five burner gas hob and a stunning circular extractor which are all designed to perfectly complement each other.

Quick guide to double ovens

The CDA range of double ovens includes both built-in and built-under models to suit your kitchen.

All double ovens are A rated in both oven cavities.

DC740

- Built-under
 - 4/3 functions

Co-ordinating products

The 9Q6 oven matches the EVQ7 extractor and the 4Q4 and 4Q5 hobs.

Hobs

Everyone has their preference and we offer everything from bridging induction hobs to professional style gas hobs in sizes from domino to extra wide.

Look out for our bridging induction hobs which allow you to turn two zones into one large induction surface, maximising your cooking space.

Gas hobs

From a practical four burner model in stainless steel, to a huge six burner design we have every configuration possible to ensure that our gas hob range works for you, whatever your cooking style. We have included wok burners for maximum power when you need it and additional wok supports to allow you to get creative with your cooking.

Choose between cast iron pan supports for a solid and professional feel or our dishwasher enamel versions for practicality and easy maintenance.

Ceramic hobs

Our ceramic hob range is a practical option for those wanting an easy to clean cooking area. The resistant glass-ceramic material is ideal for households where a quick wipe over after cooking is all you have time for.

Choose from either touch control or rotary control knobs to suit your preference. We have even included both side and front control options to allow you to choose the exact layout that works best for you.

Some of our larger ceramic models include built in dual cooking zones that allow you to increase the size of the heating zone. This is brilliant for being economical and efficient when you are using smaller pans and powerful enough for your large cookware, just when you need it.

SCHOTT CERAN

Some CDA hobs feature Schott Ceran® glass, an extremely stable material that is resistant against abrupt temperature changes. It is also designed

to withstand daily wear and tear that can occur in the kitchen whilst cooking. The four millimetre thick glass is extremely heat-permeable. The glass is able to transfer heat quickly and efficiently so that it is transmitted directly to the pots and pans, keeping the rest of the hob relatively cool. This makes it both safe and energy efficient. Glass-ceramic is the only material suitable for all kinds of heating technologies - ceramic, induction and gas.

Induction hobs

Not only is an induction hob quick to reach temperature by heating the pan directly through electromagnetic induction, it also reduces the energy losses associated with heat escape making it more accurate to control. Choose induction for quicker cooking, an easy to clean hob surface and precision control.

The specific requirement for cooking on an induction hob is that only ferromagnetic pans will work (a magnet will stick to the base of the pan if it is compatible with induction hobs). High quality, flat based pans work best with induction and new pans will carry this symbol on the packaging to show they can be used:

Best of both

Combining the best of cooking on induction with gas, the HNG7410 bridges both technologies with 4 induction zones plus a single gas wok burner. The induction side includes a timer, circular slider controls and extra safety features making it perfect for family cooking. With the addition of a gas burner, this model becomes suitable for most types of cookware and cooking styles.

Quick guide to gas hobs

Our range of gas hobs offers a wide choice. This comprehensive collection includes 1 and 2 burner domino hobs, functional 4 burner hobs and stunning 5 and 6 burner hobs for the most professional kitchen.

We have included beautiful, solid cast iron pan supports as standard with most of our hobs, whilst the HCG301, HG6150 and HG6250 have enamelled pan supports if you prefer a dishwasherable option.

All CDA gas hobs have automatic ignition and a flame failure safety device "Flame Safe" as standard.

Flame Safe is a feature designed to close off the gas supply in the event that a burner is accidentally extinguished.

- LPG conversion kit included
- Available in**
- Stainless steel
 - Black

- Technical specification**
- Burners:**
- Front left, triple ring/wok: 3.8kW
 - Front right, auxiliary: 1kW
 - Rear left, semi-rapid: 1.75kW
 - Rear right, semi-rapid: 1.75kW
 - Rated gas input: 8.3kW
 - Rated electrical power: 1W
 - Power supply required: 3A

HG6350
Four burner gas hob

- Features**
- Front control
 - Cast iron pan supports
 - Automatic ignition
 - Flame failure safety device included
 - Wok burner
- Accessories**
- Wok support
 - LPG conversion kit included
- Available in**
- Stainless steel
 - LPG gas version, HG6350LSS

- Technical specification**
- Burners:**
- Front left, triple ring/wok: 3.8kW
 - Front right, auxiliary: 1kW
 - Rear left, semi-rapid: 1.75kW
 - Rear right, semi-rapid: 1.75kW
 - Rated gas input: 8.3kW
 - Rated electrical power: 1W
 - Power supply required: 3A

HG7250
Five burner gas hob

Features

- Front control
- Cast iron pan supports
- Automatic ignition
- Flame failure safety device included
- Wok burner

Accessories

- Wok support
- LPG conversion kit included

Available in

- Black

Technical specification

Burners:

- Front left, semi-rapid: 1.75kW
- Front right, auxiliary: 1kW
- Centre, triple ring/wok: 3.8kW
- Rear left, semi-rapid: 1.75kW
- Rear right, rapid: 3kW
- Rated gas input: 11.3kW
- Rated electrical power: 2W
- Power supply required: 3A

HG7350
Five burner gas hob

Features

- Front control
- Cast iron pan supports
- Automatic ignition
- Flame failure safety device included
- Wok burner

Accessories

- Wok support
- LPG conversion kit included

Available in

- Stainless steel

HG7500
Four burner gas hob

Features

- 2 wok burners (1 dual control)
- Front control
- Cast iron pan supports
- Automatic ignition
- Flame failure safety device included

Accessories

- Wok support (not shown)
- LPG conversion kit included

Available in

- Stainless steel

HG9350
Five burner gas hob

Features

- Wok burner
- Front control
- Cast iron pan supports
- Automatic ignition
- Flame failure safety device included

Accessories

- Wok support
- LPG conversion kit included

Available in

- Stainless steel

HG9320
Six burner gas hob

- Features**
- Wok burner
 - Side control
 - Cast iron pan supports
 - Automatic ignition
 - Flame failure safety device included
- Accessories**
- Wok support
 - LPG conversion kit included
- Available in**
- Stainless steel

- Technical specification**
- Burners:**
- Front left, triple ring/wok: 3.5kW
 - Front centre, auxiliary: 1kW
 - Front right, auxiliary: 1kW
 - Rear left, semi-rapid: 1.75kW
 - Rear centre, rapid: 3kW
 - Rear right, semi-rapid: 1.75kW
 - Rated gas input: 12kW
 - Rated electrical power: 1.1W
 - Power supply required: 3A

HG3601
Domino single burner gas on glass hob

- Features**
- Wok burner
 - Front control
 - Cast iron pan supports
 - Automatic ignition
 - Flame failure safety device included
- Accessories**
- Wok support (not shown)
 - LPG conversion kit included
- Available in**
- Frameless

- Technical specification**
- Burner:**
- Centre, triple ring/wok: 3.5kW
 - Rated gas input: 3.5kW
 - Rated electrical power: 1W
 - Power supply required: 3A

HG3602
Domino two burner gas on glass hob

- Features**
- Front control
 - Cast iron pan supports
 - Automatic ignition
 - Flame failure safety device included
- Accessories**
- LPG conversion kit included
- Available in**
- Frameless

- Technical specification**
- Burners:**
- Front, semi-rapid: 1.75kW
 - Rear, rapid: 3kW
 - Rated gas input: 4.75kW
 - Rated electrical power: 1W
 - Power supply required: 3A

Black

Bevelled glass edges

Stainless steel

HVG620
Four burner gas on glass hob

- Features**
- Bevelled edges
 - Front control
 - Cast iron pan supports
 - Automatic ignition
 - Flame failure safety device included
- Accessories**
- LPG conversion kit included
- Available in**
- Stainless steel
 - Black

- Technical specification**
- Burners:**
- Front left, rapid: 3kW
 - Front right, auxiliary: 1kW
 - Rear left, semi-rapid: 1.75kW
 - Rear right, semi-rapid: 1.75kW
 - Rated gas input: 7.5kW
 - Rated electrical power: 1.1W
 - Power supply required: 3A

Black

Bevelled glass edges

Stainless steel

HVG720 Five burner gas on glass hob

- Features**
- Bevelled edges
 - Front control
 - Wok burner
 - Cast iron pan supports
 - Automatic ignition
 - Flame failure safety device included

- Accessories**
- Wok support (not shown)
 - LPG conversion kit included

- Available in**
- Stainless steel
 - Black

- Technical specification**
- Burners:**
- Front left, auxiliary: 1kW
 - Front right, semi-rapid: 1.75kW
 - Centre, wok: 3.8kW
 - Rear left, rapid: 3kW
 - Rear right, semi-rapid: 1.75kW
 - Rated gas input: 11.3kW
 - Rated electrical power: 1.1W
 - Power supply required: 3A

HVG66 Four burner gas on glass hob

- Features**
- Front control
 - Cast iron pan supports
 - Automatic ignition
 - Flame failure safety device included

- Accessories**
- LPG conversion kit included

- Available in**
- Black

- Technical specification**
- Burners:**
- Front left, auxiliary: 1kW
 - Front right, semi-rapid: 1.75kW
 - Rear left, rapid: 3kW
 - Rear right, semi-rapid: 1.75kW
 - Rated gas input: 7.5kW
 - Rated electrical power: 1W
 - Power supply required: 3A

HVG77 Five burner gas on glass hob

- Features**
- Wok burner
 - Front control
 - Cast iron pan supports
 - Automatic ignition
 - Flame failure safety device included

- Accessories**
- Wok support
 - LPG conversion kit included

- Available in**
- Black

- Technical specification**
- Burners:**
- Front left, rapid: 3kW
 - Front right, auxiliary: 1kW
 - Centre, wok: 3.5kW
 - Rear left, semi-rapid: 1.75kW
 - Rear right, semi-rapid: 1.75kW
 - Rated gas input: 11kW
 - Rated electrical power: 1W
 - Power supply required: 3A

HVG96 Five burner gas on glass hob

- Features**
- Wok burner
 - Front control
 - Cast iron pan supports
 - Automatic ignition
 - Flame failure safety device included

- Accessories**
- Wok support (not shown)
 - LPG conversion kit included

- Available in**
- Black

- Technical specification**
- Burners:**
- Front left, rapid: 3kW
 - Front centre, auxiliary: 1kW
 - Centre right, wok: 3.5kW
 - Rear left, semi-rapid: 1.75kW
 - Rear centre, semi-rapid: 1.75kW
 - Rated gas input: 11kW
 - Rated electrical power: 1W
 - Power supply required: 3A

HVG93 Four burner gas on glass hob

Features

- Wok burner
- Front control
- Cast iron pan supports
- Automatic ignition
- Flame failure safety device included

Accessories

- Wok support (not shown)
- LPG conversion kit included

Available in

- Black

Technical specification

- Burners:**
- Left, wok: 3.5kW
 - Centre left, auxiliary: 1kW
 - Centre right, semi-rapid: 1.75kW
 - Right, rapid: 3kW
- Rated gas input: 9.25kW
 - Rated electrical power: 1W
 - Power supply required: 3A

Co-ordinating products

This hob matches the 3D9 and EDD91 downdraft extractors.

4Q4 Four burner Q-style gas hob

Features

- Front control
- Cast iron pan supports
- Automatic ignition
- Flame failure safety device included

Accessories

- LPG conversion kit included

Available in

- Stainless steel

Technical specification

- Burners:**
- Front left, auxiliary: 1kW
 - Front right, semi-rapid: 1.75kW
 - Rear left, rapid: 3kW
 - Rear right, semi-rapid: 1.75kW
- Rated gas input: 7.5kW
 - Rated electrical power: 1W
 - Power supply: 3A

Co-ordinating products

This hob matches the 6Q5 and 9Q6 ovens as well as the EVQ7 extractor.

4Q5 Five burner Q-style gas hob

Features

- Wok burner
- Front control
- Cast iron pan supports
- Automatic ignition
- Flame failure safety device included

Accessories

- Wok support
- LPG conversion kit included

Available in

- Stainless steel

Technical specification

- Burners:**
- Front left, rapid: 3kW
 - Front right, auxiliary: 1kW
 - Centre, wok: 3.5kW
 - Rear left, semi-rapid: 1.75kW
 - Rear right, semi-rapid: 1.75kW
- Rated gas input: 11kW
 - Rated electrical power: 1W
 - Power supply: 3A

Co-ordinating products

This hob matches the 6Q5 and 9Q6 ovens as well as the EVQ7 extractor.

Quick guide to electric hobs

Our range of electric hobs includes a comprehensive selection of both manual and touch control 2, 4 and 5 zone ceramic hobs, high-tech induction hobs and domino hobs which you can put together in different combinations to suit your requirements.

All CDA ceramic and induction hobs have the following features:

- Easy clean surface
- Shatterproof ceramic safety glass
- Residual heat indicators

Domino

HCC310

- Griddle domino hob
 - Front control
 - Stainless steel
- More details on p76

HE3140

- 2 plate electric domino hob
 - Front control
 - Stainless steel
- More details on p76

Electric

HE6051

- 4 plate electric hob
 - Side control
 - Stainless steel
- More details on p77

Ceramic

HC3621

- 2 zone ceramic domino hob
 - Front touch control
- More details on p77

HC6211

- 4 zone ceramic hob
 - Side control
- More details on p78

Ceramic

HC6311

- 4 zone ceramic hob
 - Front control
- More details on p78

HC6621

- 4 zone ceramic hob
 - Front touch control
- More details on p79

HC7621

- 5 zone ceramic hob
 - Front touch control
- More details on p79

Ceramic

HC9621

- 5 zone ceramic hob
 - Front touch control
- More details on p80

HC9626

- 4 zone ceramic hob
 - Front touch control
- More details on p80

Induction

HN3621

- 2 zone domino induction hob
 - Front touch control
- More details on p81

HN6111

- 4 zone induction hob
 - Front touch control
- More details on p81

HN6411

- 4 zone eco induction hob
 - Front touch control
- More details on p82

HN6731

- 4 zone induction hob
 - Front touch control
 - Bridging function
- More details on p82

Induction

HN6841

- 4 zone induction hob
 - Front touch control
 - Bridging function
 - Illuminated front edge
- More details on p83

HN9611

- 5 zone induction hob
 - Front touch control
 - Bridging function
- More details on p83

Induction

HN9841

- 6 zone induction hob
 - Front touch control
 - Bridging function
- More details on p84

HN9626

- 4 zone induction hob
 - Front touch control
- More details on p84

Indu-gas

HNG7410

- 4 zone induction hob
 - Single wok burner
 - Front touch control
- More details on p85

HCC310
Domino griddle hob

- Features
- Single ceramic griddle - cook directly on glass
 - 12 power levels with indicator light
 - Front control
 - Easy clean surface

- Optional accessories
- Domino joining strip, AHJ30

- Available in
- Stainless steel

- Technical specification
- Rated electrical power: 1.3kW
 - Power supply required: 13A

HE3140
Domino two plate electric hob

- Features
- Front control
 - 6 power levels with indicator light
 - 1 rapid plates

- Available in
- Stainless steel

- Technical specification
- Zones:
- Front, 145mm: 1kW
 - Rear, 180mm rapid: 2kW
 - Rated electrical power: 3kW
 - Power supply required: 13A

HE6051
Four plate electric hob

- Features
- Side control
 - 6 power levels with indicator light
 - 2 rapid plates

- Available in
- Stainless steel

- Technical specification
- Hot plates:
- Front left, 180mm rapid: 2kW
 - Front right, 145mm: 1kW
 - Rear left, 145mm rapid: 1.5kW
 - Rear right, 180mm rapid: 1.5kW
 - Rated electrical power: 6.0kW
 - Power supply required: 30A

HC3621
Domino two zone ceramic hob

- Features
- Front control
 - Electronic touch control
 - 9 power levels
 - Easy clean surface
 - Ceramic shatterproof safety glass
 - Residual heat indicators
 - Overflow detection
 - Overheat detection
 - 99 minute timer
 - LED display
 - Safety key lock
 - Auto safety switch off
 - Temperature limiter
 - Time limit security system

- Available in
- Frameless

- Technical specification
- Zones:
- Front, 145mm: 1.2kW
 - Rear, 180mm: 1.8kW
 - Rated electrical power: 3kW
 - Power supply required: 13A

HC6211
Four zone ceramic hob

Features

- Side control
- 6 power levels with indicator light
- Easy clean surface
- Ceramic shatterproof safety glass
- Residual heat indicators
- Temperature limiter

Available in

- Frameless

Technical specification

Zones:

- Front left, 180mm: 1.8kW
- Front right, 145mm: 1.2kW
- Rear left, 145mm: 1.2kW
- Rear right, 180mm: 1.8kW
- Rated electrical power: 6.0kW
- Power supply required: 30A

HC6311
Four zone ceramic hob

Features

- Front control
- 6 power levels with indicator light
- Easy clean surface
- Ceramic shatterproof safety glass
- Residual heat indicators
- Temperature limiter

Available in

- Frameless

Technical specification

Zones:

- Front left, 180mm: 1.8kW
- Front right, 145mm: 1.2kW
- Rear left, 145mm: 1.2kW
- Rear right, 180mm: 1.8kW
- Rated electrical power: 6.0kW
- Power supply required: 30A

HC6621
Four zone ceramic hob

Features

- Front control
- Electronic touch control
- 9 power levels
- Easy clean surface
- Ceramic shatterproof safety glass
- Residual heat indicators
- Overflow detection
- Overheat detection
- LED display
- Safety key lock
- Auto safety switch off
- Temperature limiter
- Time limit security system

Available in

- Frameless

Technical specification

Zones:

- Front left, 210mm: 2.3kW
- Front right, 145mm: 1.2kW
- Rear left, 145mm: 1.2kW
- Rear right, 180mm: 1.8kW
- Rated electrical power: 6.5kW
- Power supply required: 30A

HC7621
Four zone ceramic hob

Features

- Front control
- Electronic touch control
- 9 power levels
- Easy clean surface
- Ceramic shatterproof safety glass
- Residual heat indicators
- 99 minute timer
- LED display
- Safety key lock
- Overflow detection
- Overheat detection
- Auto safety switch off
- Time limit security system
- Temperature limiter

Available in

- Frameless

Technical specification

Zones:

- Front left (triple):
 - 120mm: 0.8kW
 - 175mm: 1.6kW
 - 210mm: 2.3kW
- Front right, 145mm: 1.2kW
- Centre (dual):
 - 170mm: 1.5kW
 - 256mm: 2.2kW
- Rear left, 145mm: 1.2kW
- Rear right, 180mm: 1.8kW
- Rated electrical power: 8.7kW
- Power supply required: 40A

HC9621
Five zone ceramic hob

Features

- Front control
- Electronic touch and slide control
- 9 power levels
- Easy clean surface
- Ceramic shatterproof safety glass
- Residual heat indicators
- 99 minute timer
- LED display
- Safety key lock
- Overflow detection
- Overheat detection
- Auto safety switch off
- Time limit security system
- Temperature limiter

Available in

- Frameless

Technical specification

Zones:

- Front left (triple):
 - 120mm: 0.8kW
 - 175mm: 1.6kW
 - 210mm: 2.3kW
- Front right, 145mm: 1.2kW
- Centre (dual):
 - 170mm: 1.5kW
 - 256mm: 2.2kW
- Rear left, 145mm: 1.2kW
- Rear right, 180mm: 1.8kW
- Rated electrical power: 8.7kW
- Power supply required: 40A

HC9626
Four zone ceramic linear hob

Features

- Front control
- Electronic touch control
- 9 power levels
- Easy clean surface
- Ceramic shatterproof safety glass
- Residual heat indicators
- 99 minute timer
- LED display
- Safety key lock
- Overflow detection
- Overheat detection
- Auto safety switch off
- Time limit security system
- Temperature limiter

Available in

- Frameless

Technical specification

Zones:

- Front left (triple):
 - 120mm: 0.8kW
 - 175mm: 1.6kW
 - 210mm: 2.3kW
- Centre left, 145mm: 1.2kW
- Centre right (dual):
 - 120mm: 0.7kW
 - 180mm: 1.7kW
- Front right (dual):
 - 120mm: 0.7kW
 - 180mm: 1.7kW
- Rated electrical power: 6.9kW
- Power supply required: 30A

HN3621
Domino two zone induction hob

Features

- Front control
- Electronic touch control
- 9 power levels
- Timer
- Keep warm function
- Easy clean surface
- Ceramic shatterproof safety glass
- Residual heat indicators
- Overflow detection
- Overheat detection
- Automatic pan detection
- Small object detection
- LED display
- Safety key lock
- Auto safety switch off
- Time limit security system

Available in

- Frameless

Technical specification

Zones:

- Front, 160mm: 1.4kW
- Rear, 160mm: 1.4kW
- Rated electrical power: 2.8kW
- Power supply required: 13A

Fitting note

- Please ensure that you check that there is sufficient clearance when fitting induction hobs over both single and built-under double ovens and that adequate ventilation is provided.

HN6111
Four zone induction hob

Features

- Front control
- Electronic touch control
- 9 power levels
- Booster function on all zones
- 99 minute timer
- Keep warm function
- Easy clean surface
- Ceramic shatterproof safety glass
- Residual heat indicators
- Overflow detection
- Overheat detection
- Automatic pan detection
- Small object detection
- LED display
- Safety key lock
- Auto safety switch off
- Time limit security system

Available in

- Frameless

Technical specification

Zones:

- Front left, 210mm: 2kW, 3kW with booster
- Front right, 160mm: 1.2kW, 1.4kW with booster
- Rear left, 160mm: 1.2kW, 1.4kW with booster
- Rear right, 210mm: 2kW, 3kW with booster
- Rated electrical power: 7.4kW
- Power supply required: 32A

Fitting note

- Please ensure that you check that there is sufficient clearance when fitting induction hobs over both single and built-under double ovens and that adequate ventilation is provided.

HN6411
Four zone eco induction hob

- Features**
- Front control
 - Electronic touch control
 - 9 power levels
 - Booster function on all zones
 - Easy clean surface
 - Residual heat indicators
 - Overheat detection
 - Overflow detection
 - Automatic pan detection
 - Small object detection
 - Power share system
 - LED display
 - 99 minute timer
 - Safety key lock
 - Auto safety switch off
 - Time limit security system

- Available in**
- Frameless

- Technical specification**
- Zones:**
- Front left, 210mm: 1.5kW, 2kW with booster
 - Front right, 145mm: 1.2kW, 1.6kW with booster
 - Rear left, 145mm: 1.2kW, 1.6kW with booster
 - Rear right, 210mm: 1.5kW, 2kW with booster
 - Rated electrical power: 2.8/3.5/6/7.2kW (configurable)
 - Power supply required: 13-32A (configurable)

- If the hob is configured for use with a supply below 32A, the hob will automatically regulate the power consumption so as not to exceed the power available.

- Fitting note**
- Please ensure that you check that there is sufficient clearance when fitting induction hobs over both single and built-under double ovens and that adequate ventilation is provided.

HN6731
Four zone induction hob

- Features**
- Electronic touch control
 - Front control
 - Left zones bridging function
 - 9 power levels
 - Booster function on all zones
 - 99 minute timer
 - Pause/restart function
 - Keep warm function
 - Easy clean surface
 - Ceramic shatterproof safety glass
 - Residual heat indicators
 - Overflow detection
 - Overheat detection
 - Automatic pan detection
 - Small object detection
 - LED display
 - Safety key lock
 - Auto safety switch off
 - Time limit security system

- Available in**
- Frameless

- Technical specification**
- Zones:**
- Front left: 160mm, 1.4kW, 2kW with booster
 - Front right: 160mm, 1.2kW, 1.4kW with booster
 - Rear left: 160mm, 1.2kW, 1.4kW with booster
 - Rear right: 210mm, 2.3kW, 3kW with booster
 - Rated electrical power: 7.1kW

HN6841
Four zone induction hob with illuminated front edge

- Features**
- Side bevelled edges
 - Illuminated front edge
 - Front control
 - Electronic touch and slide control
 - 9 power levels
 - Booster function on all zones
 - Left zones can be bridged
 - Right zones can be bridged
 - 99 minute timer
 - Pause/restart function
 - Melt function
 - Keep warm function
 - Simmer function
 - Easy clean surface
 - Ceramic shatterproof safety glass
 - Residual heat indicators
 - Overflow detection
 - Overheat detection
 - Automatic pan detection
 - Small object detection
 - LED display
 - Safety key lock
 - Auto safety switch off
 - Time limit security system

- Available in**
- Frameless

- Technical specification**
- Zones:**
- Front left: 220mm x 190mm, 2.2kW, 3.7kW with booster
 - Front right: 220 x 190mm, 2.2kW, 3.7kW with booster

Illuminated edge
Illuminated front edge serves to indicate that the hob surface is still hot.

Side bevelled glass edges

Illuminated front edge

HN9611
Five zone induction hob

- Features**
- Front control
 - Electronic touch control
 - Left zones bridging function
 - Right zones bridging function
 - 9 power levels
 - Booster function on all zones
 - 99 minute timer
 - Pause/restart function
 - Melt function
 - Keep warm function
 - Simmer function
 - Easy clean function
 - Ceramic shatterproof safety glass
 - Residual heat indicators
 - Overflow detection
 - Overheat detection
 - Automatic pan detection
 - Small object detection
 - LED display
 - Safety key lock
 - Auto safety switch off
 - Time limit security system

- Available in**
- Frameless

- Technical specification**
- Zones:**
- Front left: 210mm, 2.1kW, 3.7kW with booster
 - Front right: 210mm, 2.1kW, 3.7kW with booster
 - Centre: 260mm, 2.6kW, 3.7kW with booster

- Rear left: 210mm, 2.1kW, 3.7kW with booster
 - Rear right: 210mm, 2.1kW, 3.7kW with booster
 - Rated electrical power: 11.1kW
 - Power supply required: 45A
- Fitting note**
- Please ensure that you check that there is sufficient clearance when fitting induction hobs over both single and built-under double ovens and that adequate ventilation is provided.

Melt function

Use the melt function to slowly warm delicate foods that are prone to burning, such as chocolate or butter.

Side bevelled glass edges

HN9841 Six zone induction hob

Features

- Front control
- Electronic touch and slide control
- Left zones bridging function
- Centre zones bridging function
- Right zones bridging function
- 9 power levels
- Booster function on all zones
- 99 minute timer
- Pause/restart function
- Melt function
- Keep warm function

- Auto safety switch off
- Time limit security system
- Temperature limiter
- Side and front bevelled edges

Available in

- Frameless

Technical specification

Zones:

- Front left: 220mm: 2.1kW, 3.7kW with booster
- Front centre: 220mm: 2.1kW, 3.7kW with booster
- Front right: 220mm: 2.1kW, 3.7kW with booster
- Rear left: 220mm: 2.1kW, 3.7kW with booster
- Rear centre: 220mm: 2.1kW, 3.7kW with booster
- Rear right: 220mm: 2.1kW, 3.7kW with booster
- Rated electrical power: 11.1kW
- Power supply required: 45A

Fitting note

- Please ensure that you check that there is sufficient clearance when fitting induction hobs over both single and built-under double ovens and that adequate ventilation is provided.

HN9626 Four zone linear induction hob

Features

- Front control
- Electronic touch control
- 9 power levels
- Booster function on all zones
- 99 minute timer
- Pause/restart function
- Keep warm function
- Easy clean surface
- Ceramic shatterproof safety glass
- Overheat detection
- Overflow detection
- Automatic pan detection
- Small object detection
- LED display
- Safety key lock
- Auto safety switch off
- Time limit security system
- Temperature limiter

Available in

- Frameless

Technical specification

Zones:

- Front left, 220mm: 2.3kW, 3kW with booster
- Centre left, 180mm: 1.2kW, 1.4kW with booster
- Centre right, 180mm: 1.2kW, 1.4kW with booster
- Front right, 220mm: 2.3kW, 3kW with booster
- Rated electrical power: 7.4kW
- Power supply required: 32A

Fitting note

- Please ensure that you check that there is sufficient clearance when fitting induction hobs over both single and built-under double ovens and that adequate ventilation is provided.

Pause function

Use the pause function on our induction hob models if you have to leave the kitchen temporarily. This pauses the cooking time, allowing you to pick up where you left off when you return.

Bevelled glass edges

HNG7410 Four zone induction hob with single gas wok burner

Features

- Bevelled edges
- Front control
- Electronic touch control
- Induction and gas combination
- 9 power levels
- Booster function (on 2 induction zones)
- 99 minute timer
- Automatic cooking function (induction zones)
- Automatic electronic touch control gas ignition
- Cast iron pan supports
- Residual heat indicators
- Overheat detection
- Overflow detection
- Auto safety switch off
- Wok burner
- Flame failure included

Accessories

- Wok support (not shown)

Available in

- Frameless

Technical specification

Burners/zones:

- Left middle, dual wok: 5kW (gas)
- Rear central, 215mm: 2.3kW, 3kW with booster
- Front central, 175mm: 1.4kW
- Rear right, 175mm: 1.4kW
- Front right, 215mm: 2.3kW, 3kW with booster

- Rated gas input: 5kW
- Rated electrical power: 7.4kW
- Power supply required: 32A

Fitting note

- This hob is supplied in natural gas only.
- Please ensure that you check that there is sufficient clearance when fitting induction hobs over both single and built-under double ovens and that adequate ventilation is provided.

Keep your kitchen smelling fresh and clean with one of our stylish extractors.

Extractors

As well as keeping your kitchen fresh, a stylish CDA extractor will provide a focal point, adding impact to the overall design.

Ducted/re-circulating

Choose between ducting your extractor outside or recirculating filtered, cleaned air back into your kitchen with the CDA extractor range. We provide a comprehensive range of ducting kits and charcoal filters, listed on our accessories pages, to support your preference.

Peripheral aspiration

As well as giving the extractor a minimalist look, peripheral aspiration technology works to draw the air around the edges of the extractor instead of across the whole surface area. This means an ultra-efficient, quieter extractor that's also easy to keep clean.

Lighting

For ambient lighting in the kitchen our range of edge-lit extractors give you the option to switch on LED lighting in a range of colours as an extra design feature in your home. The EKP range are in a curved glass design, while the EKN models have flat glass, both come with the edge lighting detail.

For clear, ceiling height extraction and bright LED lighting take a look at the EVX101 and EVX110. As well as one of the most powerful extraction rates on the market it features low noise levels and user-friendly features for your convenience.

Automatic cut-off timer

The residual smells of cooking can leave a bad taste in the mouth and they don't stop being produced when the hob is switched off. That's why many touch control models offer an automatic cut-off timer to continue working until the residual steam and odours are removed from your home.

Filter maintenance

A helpful saturated filter warning light lets you know when the dishwasher grease filters require cleaning, or the charcoal filters need replacing. Maintaining the filters allows your extractor to work safely at its best. By keeping your extractor running efficiently, you'll keep your energy bills in check and your home smelling great.

Quick guide to extractors

Our extensive range of extractors includes integrated and under canopy models, together with a great selection of stylish, contemporary chimney and island extractors for a chic design statement in your kitchen.

Most CDA extractor models have dishwasher aluminium grease filters.

Extraction and noise level measurements

The extraction rate and noise level measurements are displayed in accordance with EN61591 for extraction rates and EN60704 for noise levels. These measurements provide an approximation of real world performance when installed with recommended ducting kits.

Required distance between hob and extractor

Please refer to both your hob and extractor instructions before installation - for legal requirements, the distance between your hob and extractor should be determined by the maximum measurement provided.

Ducting advice

Using ducting of smaller diameter than that recommended may increase the noise level and can reduce the efficiency of your extractor. Where possible, always use the largest diameter ducting you can.

Functional

CST61
 • Standard extractor
 • Available in stainless steel or white
 More details on p90

EIN60
 • Integrated extractor
 • CCA5 available in silver or white
 • CCA7 available in silver

- Energy efficiency rating**
- Energy rating: D
- Fitting note**
- Please ensure that you check the ceiling height is sufficient to allow the required clearance between the hob and extractor.

Clean air function

The clean air function means that your extractor comes on for ten minutes every hour, outside of use during cooking. In these ten minutes the extractor works to purify the air in your kitchen, meaning it is not just a companion for your hob; it even works hard when you are not cooking.

EVPK90 Linear island extractor

- Features**
- Ducted/re-circulating installation

- Ducting kits:
 - 120mm, AED51/53/54
 - 150mm, AED61/63/64
 - Charcoal filter for re-circulation, CHA23 (pack of 1)
- Available in**
- Stainless steel
 - Black
- Technical specification**
- Required height over gas hob: 750mm (min)
 - Required height over electric hob: 650mm (min)
- Outlet diameter:** 120mm/150mm
- Noise level:** 55dBA
- Extraction rate:** 620m³/h
- Rated electrical power:** 290W
- Power supply required:** 3A
- Energy efficiency rating**
- Energy rating: D

- Fitting note**
- Please ensure that you check the ceiling height is sufficient to allow the required clearance between the hob and extractor.

EVQ7 Circular extractor

Features

- Ducted/re-circulating installation
- 3 speeds + intensive
- Touch control
- Aluminium grease filter
- 2 x 20W halogen lights
- 99 minute variable timer
- Quick start

Optional accessories

- Ducting kit, AED61/63/64
- Charcoal filter for re-circulation, CHA16 (pack of 1)

Available in

- Stainless steel with black glass fascia

Technical specification

- Required height over gas hob: 650mm (min)
- Required height over electric hob: 650mm (min)
- Outlet diameter: 150mm
- Noise level: 71dBA
- Extraction rate: 393m³/h
- Rated electrical power: 238W

- Power supply required: 3A

Energy efficiency rating

- Energy rating: D

Fitting note

- Please ensure that you check the ceiling height is sufficient to allow the required clearance between the hob and extractor.

3U10 Updraft extractor

Features

- Ducted/re-circulating installation
- 3 speeds + intensive
- Touch control
- Aluminium grease filter
- 1 x 10W LED strip light
- Filter saturation warning light
- 10 minute timer

Optional accessories

- Ducting kit, AED61/63/64
- Charcoal filter for re-circulation, CHA32 (pack of 2)

Available in

- Stainless steel with black glass fascia

Technical specification

- Required height over gas hob: 650mm (min)
- Required height over electric hob: 650mm (min)
- Outlet diameter: 150mm
- Noise level: 68dBA
- Extraction rate: 496m³/h

- Rated electrical power: 90W
- Power supply required: 3A

Energy efficiency rating

- Energy rating: C

Fitting note

- Please ensure that you check the ceiling height is sufficient to allow the required clearance between the hob and extractor.

Stainless steel

EVX101 Ceiling extractor

- Features**
- Ducted/re-circulating installation
 - 8 speeds + intensive
 - Soft touch buttons
 - Stainless steel grease filters
 - 4 x 4W LED lights
 - Filter saturation warning light
 - Clean air function
 - 30 minute timer
 - Peripheral aspiration

- Accessories**
- Remote control

- Optional accessories**
- Ducting kit, AED61/63/64
 - Charcoal filter for re-circulation, CHA18 (pack of 2)

- Available in**
- Stainless steel

- Technical specification**
- Required height over gas hob: 750mm (min)

- Required height over electric hob: 750mm (min)
- Outlet diameter: 150mm
- Noise level: 64dBA
- Extraction rate: 570m³/h
- Rated electrical power: 286W
- Power supply required: 3A

- Energy efficiency rating**
- Energy rating: B

- Fitting note**
- The extraction outlet can be rotated through 90°, 180° or 270°, allowing for flexible installation.

EVX110 Ceiling extractor

- Features**
- Ducted/re-circulating installation
 - 3 speeds + intensive
 - Aluminium grease filter
 - 2 x 10.5W LED strip lights
 - Timer function

- Accessories**
- Remote control

- Optional accessories**
- Ducting kit, AED61/63/64
 - Charcoal filter for re-circulation, CHA20 (pack of 2)

- Available in**
- White glass
 - Stainless steel

- Technical specification**
- Required height over gas hob: 650mm (min)
 - Required height over electric hob: 650mm (min)
 - Outlet diameter: 150mm
 - Noise level: 63dBA

- Extraction rate: 615m³/h
- Rated electrical power: 296W
- Power supply required: 3A
- Supplied with a UK plug

- Energy efficiency rating**
- Energy rating: A

- Fitting note**
- Please ensure that you check the ceiling height is sufficient to allow the required clearance between the hob and extractor.

White

Black

3S10 Spherical designer extractor

- Features**
- Re-circulating installation
 - 3 speeds + intensive
 - Aluminium grease filter
 - 3S10BL - 1 x 3W LED downlight
 - 3S10WH - 2 x 40W neon lights
 - 10 minute timer

- Accessories**
- Remote control
 - Charcoal filter for re-circulation, CHA30 (pack of 2)

- Available in**
- White
 - Black

- Technical specification**
- Required height over gas hob: 650mm (min)
 - Required height over electric hob: 650mm (min)
 - Noise level: 48dBA
 - Extraction rate: 320m³/h
 - Rated electrical power:
 - 143W (3S10BL)
 - 220W (3S10WH)

- Power supply required: 3A

- Fitting note**
- Please ensure that you check the ceiling height is sufficient to allow the required clearance between the hob and extractor.

Focal point
The 3S10 in black has crisp LED downlighting to illuminate your cooking space whilst the 3S10 in white provides an ambient glow with internal neon lights.

EDD61

3D9
Downdraft extractor

Downdraft extractors
Sleek and efficient, downdraft extractors slip effortlessly away below the worktop when not in use - the perfect choice for a minimalist, modern kitchen, or for a room where a low ceiling height limits the use of an overhead extractor.

EDD91

EDD61/91
Downdraft extractor

- Features**
- Ducted/re-circulating installation
 - EDD61: 4 speeds

- Energy efficiency rating
- Energy rating: A

Co-ordinating products
This extractor matches any of our linear hobs.

Cooling

Our refrigeration range includes everything from American style fridge freezers to under counter fridges, all carefully designed to keep your food under optimum conditions.

The ice and water dispenser on the PC71 American style fridge freezer will never run out of cubed or crushed ice for your drinks. Plumbing the dispenser straight into your water supply means that you can have chilled, filtered water on tap! .

A+ energy efficiency

Our entire refrigeration range is at least A+ rated for energy efficiency. A+ rated products use up to 25% less energy than A rated models, meaning lower running costs.

4 star freezers

All CDA freezers come with a 4 star rating, the highest classification available. A 4 star rating allows you to store frozen food for up to 12 months and freeze fresh food efficiently and safely.

Multi-airflow

Introducing fresh food to your freezer can increase the temperature temporarily and new items may take longer to freeze. Using the fast freeze function will boost your freezer power to bring the fresh items down to temperature quickly and safely.

The multi-airflow design on the PC870 & PC900 has been created to improve the cool air circulation in and around food and drink in your fridge. By increasing the airflow, the fridge works more efficiently at cooling your perishables, keeping them fresher for longer.

LED interior lighting

This eye-catching feature will delight you as soon as you open the door. The LED lights emit no heat and run on very little energy. Plus, the beautifully designed PC900 American style premium frost free four door fridge freezer is bright enough to cast light into every corner of the fridge.

Draught beer dispenser

This unique compact appliance can serve a beautiful pub-style pint of beer or lager in your own kitchen! The professional beer connection kit is pre-assembled on a steel plate ready for positioning below the dispenser. The beer passes through the integral flash chiller before it is dispensed at your preferred temperature.

Quick guide to refrigeration

The CDA refrigeration range includes both integrated and freestanding options.

Integrated models offer a variety of fridge, freezer and combination options to suit your kitchen.

The freestanding range includes the superb American style side-by-sides and a range of wine coolers.

All CDA fridges have an automatic self-defrosting feature so you never have to spend time defrosting your fridge.

Flexi-cool zone
The flexi-cool zone is a specialised compartment which allows you to choose between fridge or freezer space, according to your food storage requirements.

LED strip lighting

Wine coolers

Using the latest anti-vibration technology, UV-protection and temperature control, CDA wine coolers keep your collection in optimum condition.

Variations in temperature, light and movement can all accelerate the ageing process and damage your collection. Installing a wine cooler is a practical and stylish addition to your kitchen. All models come with the latest technology to provide the perfect storage solution.

UV-protective toughened smoked glass doors

All CDA wine coolers have UV-protective, toughened, smoked glass doors to prevent sunlight spoiling the wine. This also assists thermal efficiency.

Luxury wooden shelving

All models feature luxury solid wooden shelves as standard (excludes 15cm slimline models). The FWV901 integrated model also has the addition of a luxury wooden display shelf (shown above).

Wine cooler glass shelf optional accessory

Our wine cooler glass shelf is perfect for storing smaller items such as bottles and cans - compatible with the FWC303, FWC603, FWC623 and FWC860 models. Please see our accessory section for details.

Digital temperature control

All CDA wine coolers are designed with electronic temperature control which is adjustable between 5°C and 22°C. The red digital display is easy to use and has a convenient memory function.

A rated energy efficiency

As we continually move forward and improve our products in response to new technology, our latest range of wine coolers has improved efficiency ratings to save on energy usage in your home.

Bright LED interior lighting

Bright LED interior lighting illuminates the internal cavity beautifully and makes finding the right bottle quick and easy.

FWC152
Freestanding/under counter slimline wine cooler

- Features**
- Black plinth
 - Red digital display
 - Single temperature storage zone
 - 6 integrated supports
 - Electronic temperature control
 - UV-protective toughened smoked glass door
 - Double glazed door
 - LED interior lighting
 - Temperature memory function
 - Over temperature alarm
 - Height adjustable plinth section
 - Safety key lock

- Available in**
- Stainless steel
 - Black glass

- Technical specification**
- Reversible door
 - Rated electrical power: 60W
 - Power supply required: 13A
 - Noise level: 41dBA
 - Temperature range: 5°C to 22°C
 - Total bottle storage: 7 (75cL Bordeaux bottles)
 - Compressor driven

- Energy efficiency rating**
- Energy rating: B

- Energy consumption**
- Energy consumption per annum: 186kW.h

FWC303
Freestanding/under counter slimline wine cooler

- Features**
- Black plinth
 - Red digital display
 - Single temperature storage zone
 - 5 wooden slide-out shelves
 - Electronic temperature control
 - UV-protective toughened smoked glass door
 - Double glazed door
 - LED interior lighting
 - Temperature memory function
 - Over temperature alarm
 - Height adjustable plinth section
 - Humidifier to maintain 50-80% RH
 - Safety key lock

- Optional accessories**
- Glass shelves (pack of 3), AFG31

- Available in**
- Stainless steel
 - Black glass

- Technical specification**
- Reversible door
 - Rated electrical power: 85W
 - Power supply required: 13A
 - Noise level: 39dBA
 - Temperature range: 5°C to 22°C

FWC603
Freestanding/under counter wine cooler

- Features**
- Black plinth
 - Red digital display
 - Dual temperature storage zones
 - 5 wooden slide-out shelves
 - Electronic temperature control
 - UV-protective toughened smoked glass door
 - Double glazed door
 - LED interior lighting
 - Temperature memory function
 - Over temperature alarm
 - Height adjustable plinth section
 - Integral heater
 - Humidifier to maintain 50-80% RH
 - Safety key lock

- Optional accessories**
- Glass shelves (pack of 3), AFG61

- Available in**
- Stainless steel
 - Black glass

- Technical specification**
- Reversible door
 - Rated electrical power: 100W
 - Power supply required: 13A
 - Noise level: 40dBA
 - Temperature range in upper zone: 5°C to 22°C

- Temperature range in lower zone: 5°C to 22°C
- Bottle storage in upper zone: 16 (75cL Bordeaux bottles)
- Bottle storage in lower zone: 30 (75cL Bordeaux bottles)
- Total bottle storage: 46 (75cL Bordeaux bottles)
- Compressor driven

- Energy efficiency rating**
- Energy rating: B

- Energy consumption**
- Energy consumption per annum: 183kW.h

FWC623
Freestanding/under counter double door wine cooler

- Features**
- Black plinth
 - Red digital display
 - Dual temperature storage zones
 - 11 wooden slide-out shelves
 - Electronic temperature control
 - UV-protective toughened smoked glass door
 - Triple glazed door
 - LED interior lighting
 - Temperature memory function
 - Over temperature alarm
 - Height adjustable plinth section
 - 2 humidifiers to maintain 50-80% RH
 - Safety key lock

- Optional accessories**
- Glass shelves (pack of 3), AFG31

- Available in**
- Stainless steel
 - Black glass

- Technical specification**
- Rated electrical power: 100W
 - Power supply required: 13A
 - Noise level: 42dBA
 - Temperature range in left zone: 5°C to 22°C

- Temperature range in right zone: 5°C to 22°C
- Bottle storage in left zone: 20 (75cL Bordeaux bottles)
- Bottle storage in right zone: 20 (75cL Bordeaux bottles)
- Total bottle storage: 40 (75cL Bordeaux bottles)
- Compressor driven

- Energy efficiency rating**
- Energy rating: B

- Energy consumption**
- Energy consumption per annum: 195kW.h

FWC860
Full height freestanding wine cooler

- Features**
- Black plinth
 - Red digital display
 - Dual temperature storage zones
 - 14 wooden slide-out shelves
 - Electronic temperature control
 - UV-protective toughened smoked glass door
 - Triple glazed door
 - LED interior lighting
 - Energy saving mode
 - Temperature memory function
 - Over temperature alarm
 - Door open alarm
 - Humidifier in upper zone to maintain 50-80% RH
 - Integral heater
 - Safety key lock
- Noise level: 45dBA
 - Temperature range in upper zone: 5°C to 22°C
 - Temperature range in lower zone: 5°C to 22°C
 - Bottle storage in upper zone: 64 (75cL Bordeaux bottles)
 - Bottle storage in lower zone: 62 (75cL Bordeaux bottles)
 - Total bottle storage: 126 (75cL Bordeaux bottles)
 - Compressor driven
- Energy efficiency rating**
- Energy rating: B
- Energy consumption**
- Energy consumption per annum: 225kW.h

- Optional accessories**
- Glass shelves (pack of 3), AFG61
 - Joining kit, AFJ61

- Available in**
- Black

- Technical specification**
- Height adjustable feet
 - Reversible door
 - Rated electrical power: 160W
 - Power supply required: 13A

Co-ordinate the FF820, FWC860 and FF880 for the ultimate cooling station. Remember to add an AFJ61 kit containing the joining strips and plinth to seamlessly combine all three appliances.

FWV901
Integrated in-column wine cooler

- Features**
- Red digital display
 - Dual temperature storage zones
 - 5 wooden slide-out shelves and 1 wooden display shelf
 - Electronic temperature control
 - UV-protective toughened smoked glass door
 - Triple glazed door
 - LED interior lighting
 - Temperature memory function
 - Over temperature alarm
 - Door open alarm
 - Energy saving mode
 - Display light function
 - Humidifier to maintain 50-80% RH
 - Safety key lock
- Bottle storage in upper zone: 28 (75cL Bordeaux bottles)
 - Bottle storage in lower zone: 27 (75cL Bordeaux bottles) 25 when using display shelf
 - Total bottle storage: 55 or 53 when using display shelf (75cL Bordeaux bottles)
 - Compressor driven
- Energy efficiency rating**
- Energy rating: B
- Energy consumption**
- Energy consumption per annum: 195kW.h

- Accessories**
- 1 wooden display shelf

- Available in**
- Black

- Technical specification**
- Reversible door
 - Rated electrical power: 100W
 - Power supply required: 13A
 - Noise level: 41dBA
 - Temperature range in upper zone: 5°C to 22°C
 - Temperature range in lower zone: 5°C to 22°C

FWV600
Integrated wine cooler

Features

- Red digital display
- Single temperature storage zone
- 4 wooden slide-out shelves
- Electronic temperature control
- UV-protective toughened smoked glass door
- Triple glazed door
- LED interior lighting
- Temperature memory function
- Over temperature alarm
- Door open alarm
- Energy saving mode
- Display light function
- Humidifier to maintain 50-80% RH
- Safety key lock

Available in

- Black

Technical specification

- Reversible door
- Rated electrical power: 100W
- Power supply required: 13A
- Noise level: 39dBA
- Temperature range: 5°C to 22°C
- Bottle storage: 40 (75cL Bordeaux bottles)
- Compressor driven

Energy efficiency rating

- Energy rating: A

Energy consumption

- Energy consumption per annum: 140kW.h

FWV451
Integrated compact wine cooler

Features

- Red digital display
- Single temperature storage zone
- 3 wooden slide-out shelves
- Electronic temperature control
- UV-protective toughened smoked glass door
- Triple glazed door
- LED interior lighting
- Temperature memory function
- Over temperature alarm
- Door open alarm
- Energy saving mode
- Display light function
- Humidifier to maintain 50-80% RH
- Safety key lock

Available in

- Black

Technical specification

- Reversible door
- Rated electrical power: 85W
- Power supply required: 13A
- Noise level: 39dBA
- Temperature range: 5°C to 22°C
- Bottle storage: 24 (75cL Bordeaux bottles)
- Compressor driven

Energy efficiency rating

- Energy rating: A

Energy consumption

- Energy consumption per annum: 140kW.h

Integrated compact draught beer dispenser

With an integrated flash chiller, this beer dispenser will have your drink chilled and ready to serve in just 5 minutes.

BVB4
Integrated compact draught beer dispenser

- Features**
- Professional fully integrated beer dispenser
 - Compatible with 10L, 30L and 50L kegs
 - Ready to dispense beer within five minutes of installation without chilling the keg in advance
 - Supplied with CO₂ canister
 - Temperature controlled by thermostat: 4°C to 8°C
 - LED lighting
 - Easy cleaning process
 - Removable drip tray
 - Supplied with S-type connector

- Technical specification**
- Rated electrical power: 190W
 - Power supply required: 13A
 - Draught capacity:
 - 40L/h Δt 10k
 - 14.5L/h Δt 20k

This appliance is supplied with a full professional connecting kit and is designed to fit in a full height unit, which will house the beer keg and connections directly below the built-in dispensing unit.

- Optional accessories**
- Alternative keg connectors, ABC001 (G-type)/ABC005(A-type)
 - CO₂ bottle, ABC002
 - Cleaning tablets, ABC003
 - Alternative cleaning connectors, ABC004/ABC006

- Available in**
- Stainless steel

The line drawing shows the dimensions of the built-in dispensing unit only.

Dishwashers

CDA dishwashers have been designed with function and performance in mind. Combining energy saving features and intelligent technology they deliver perfect results, every time.

Our intelligent dishwashers sense the level of soiling and select the corresponding temperature and amount of water for the best possible wash performance. Energy and water usage is optimised by using only the energy required for the job and no more.

Drying

Special features like Active Drying, on models like the WC600, mean that your dishwasher doesn't rely on passive heat to dry the dishes. Instead, it forces air around the cavity using a fan; drying them quickly and efficiently.

Energy efficiency

Our dishwasher models have all been rated A++ for energy efficiency, ensuring that they use the least amount of water possible to give brilliant wash results while also using the smallest amount of energy possible.

Flood protection

All our dishwashers offer leak detection to avoid flood damage in your home. For total peace of mind, the Aquastop system in models like the WC600 dishwasher will automatically cut off the water supply in the event of a leak or flood.

Water consumption

It is a common misconception that dishwashers use more water than hand washing alone. The average household would complete two lots of hand washing per day, using 21 litres of water each time. With CDA dishwashers using between just 9 and 12 litres of water per load, and holding up to 15 place settings, you can take care of the washing up, your energy usage and water consumption all at the same time, whilst being friendly to the environment.

Quick guide to dishwashers

CDA dishwashers combine state-of-the-art technology with meticulous build quality to give you reliable performance for years to come.

All our dishwashers feature:

- A++ rating for energy efficiency
- Cold water fill
- Counter-balanced door
- Upper height-adjustable basket to accommodate larger items
- Concealed heating element to protect the bottom basket
- Delay timer to take advantage of off-peak electricity

Laundry

All of our washing machines are A rated or better for wash performance. Being equipped with the latest programmes and features, they make efficient use of water and energy.

Look out for our models with an Eco-logic feature. These machines can detect smaller loads and will use less water and power accordingly.

Choice

CDA's range consists of both integrated and freestanding washing machines, tumble dryers and washer dryers. We are constantly testing, improving and developing our technologies to ensure that you can choose from the most energy efficient and effective appliances possible, whatever model you go for.

Quick wash

All our washers come with a quick wash option making life easier for busy families. We have pioneered super quick wash programmes that can do a wash in just 15 minutes on the CI325, CI371, CI925 and CI971 whilst the CI261 model takes just 12 minutes!

Advanced technology

High energy ratings are important on appliances like washing machines as they are in use frequently and can make up a large proportion of your energy bills. The CI261 is now rated A+++ for energy, our highest rating, meaning that you will get brilliant wash results without excessive water and energy usage.

Special wash functions help to care for your garments with every wash. Using the Delicate Wash, Easy Iron or even the Colourfast Cotton cycle will adjust the settings to look after your clothes and linens, making them last longer.

Additional digital sensors on our laundry models work with your spin cycle, water inlet and drying times to adjust the settings to achieve perfect results, every time. The Eco-logic feature even automatically adjusts the programme to suit the load and level of soiling on your wash. All this has been included to make your chores lighter and life a little easier in the home.

Quick guide to laundry

The CDA laundry range includes integrated and freestanding washing machines, washer dryers and tumble dryers.

All CDA washing machines and washer dryers have the following features:

- Robust stainless steel drum
- Safety door lock
- Cold water fill
- Integrated machines take a full height furniture door which can be hinged on the right or left

Freestanding washing machine

CI261

- 1200 spin speed
 - 9kg wash load
 - Energy rating: A+++
 - Available in white or black
- More details on p152

Freestanding washer dryer

CI860

- 1400 spin speed
 - 8 + 6kg wash load
 - Energy rating: A

Sinks

The CDA sink range includes stainless steel, composite, ceramic and glass in either contemporary or traditional designs to suit any kitchen.

Our comprehensive sink range offers maximum impact combined with cutting edge technology - the K980 even has Ariapura where titanium dioxide nanoparticles actively purify the air around your sink.

Stainless steel

All CDA sinks are constructed from premium 304 grade stainless steel for superb quality. Stainless steel is resistant to heat and household chemicals, and is easy to clean. It has a smooth, non-porous surface making it very practical and hygienic.

Composite

Made from a mixture of quartz or granite blended with acrylic resin for durability, our composite sinks are hard wearing and combine the natural look of stone with the benefits of a modern material.

Glass

The stunning KVL02 is an innovative glass sink which co-ordinates perfectly with our black glass appliances and hobs. It is constructed from robust scratch, stain and heat resistant glass and finished with an elegant bevelled edge.

Ceramic

Made from incredibly robust, fine fireclay with a hard, glossy finish, these sinks are easy to clean and extremely durable. Our choice of styles includes contemporary single or one and a half bowl sinks, traditional Belfast styles and even ceramic undermount sinks.

Undermount sinks

If you are looking for something a little more streamlined, then an undermount sink is the way to go. The sink is designed to fit with the worktops overlapping the edges, for a seamless finish. You can still have the option of steel, ceramic or composite and you needn't compromise on size either, with one and a half bowl sizes available.

Quick guide to sinks

The CDA range of sinks includes stainless steel, ceramic, composite and even glass models. Undermount sinks are also available in stainless steel, composite or ceramic materials.

Most CDA sinks are supplied with pipework included and have large 3.5" strainer wastes.

Stainless steel sinks

All stainless steel sinks from CDA are manufactured from premium quality 304 grade steel. This gives the sink a high resistance to corrosion and rust, with the ability to withstand all common household detergents. They are also extremely hygienic and easy to clean.

Ceramic sinks

CDA ceramic sinks have a hard, non-porous surface with a tough, gloss finish. They are extremely durable and are resistant to both chemicals and heat. We offer a variety of styles from contemporary to traditional, including the classic "Belfast" model, available in both a single and double bowl option.

Please note: Ceramic sinks are traditionally made and each one will have individual characteristics. This may cause dimensions to vary from those shown in the brochure by between 2 and 5%.

Composite sinks

Our composite sinks are made of natural granite or quartz combined with acrylic resin to give a durable and hard wearing sink.

Like the natural stone, particles of granite combined with resin give these sinks an authentic flecked finish that is incredibly hard wearing.

Accessories

Look out for the useful optional accessories which are available to help make your life easy. Our accessories are designed to work perfectly with the compatible sinks.

Undermount sinks

Also available but not shown in detail here:

A handmade fireclay sink is very hard wearing. It is traditionally made, and each one will have individual characteristics. The dimensions may vary slightly and there are likely to be natural marks under the glaze giving real character.

KC41
Ceramic undermount/inset half bowl sink

Taps

Whether it is a simple lever tap, or something more sophisticated, choose a tap from our 2017 collection and you can be sure that it will be beautifully designed.

Our range includes taps to suit every kitchen from minimalist styles in stainless steel, chrome or nickel to traditional mixer taps, filter and an instant hot water tap.

Filter tap

Our TF55 tap filters mains tap water to improve its taste, clarity and odour. Mains water is passed through a cartridge concealed under the sink and is controlled through the tap by a simple lever action.

Professional chef style taps

A pull-out spray is a useful helping hand on some of our contemporary taps. Use the spray for thorough rinsing of fruit and vegetables, for fast defrosting, to fill large vases or buckets, or for countless other kitchen jobs.

Hot water on demand

Speed up cooking and making hot drinks by installing a TH101 instant hot water tap. With an under-counter heating tank, this useful kitchen appliance can produce around 1.8 litres of hot water per minute, supporting many culinary tasks.

Quick guide to taps

The range of taps from CDA covers a wide spectrum of designs, from stylish, functional taps through to cutting-edge, contemporary designer taps to make a bold statement in your kitchen.

Flow restrictors

Where building regulations (Part G) or ECO-design requirements stipulate maximum flow rates, we offer flow reducers (ATF002/ATF003), which are designed to be fitted inside the supply tails of the tap.

Guidance on minimum operation pressure

Taps with a minimum operating pressure of 0.4Bar, or less, are compatible with low pressure hot water systems.

Check your supply pressure before purchasing taps requiring 0.5Bar or higher.

Recommended by CDA

When you're busy making your magic in the kitchen, that's when accidents can happen. Reduce this risk by having a professional shelving system on your oven.

Our telescopic shelf kits allow dishes to slide forward and back with ease and importantly have the strength to hold the heaviest roast.

¹main oven only. ²main and second ovens only. ³top oven only.

Please check product pages for compatibility.

Heating accessories

APH01SS Plinth heater

- Stainless steel finish
- 3 heat settings: cold (fan only), warm, hot
- On-off switch with neon indicator
- Automatic safety cut out
- Rated electrical power: 2kW
- Power supply required: 13A

Our 2kW slimline plinth heater provides instant heat where space is at a premium and discreet yet effective heating is required.

Cleverly concealed in the 'kick space' beneath kitchen units, stairwells and fitted furniture, a plinth heater eliminates the need for a separate radiator, allowing better use of the kitchen space.

Guarantee

Terms and conditions of guarantee

- Parts are defined as mechanical/electrical parts only.
- Products registered outside of the 30 day period will receive 12 months parts and labour.
- Proof of date of purchase must be supplied.
- To qualify for free parts they must be fitted by a CDA appointed engineer.
- Any attempts to modify or repair an appliance by an unauthorised person will render all guarantees invalid.
- A charge will be made for attending a reported fault that transpires to be due to misuse or mis-installation.
- CDA retains the right to invalidate the guarantee in the event of physical or verbal abuse towards any member of staff.
- CDA guarantees cover domestic use only - commercial use is not covered.
- Guarantees in whole or part are not transferable.
- Taps – During the first year, at our discretion we may pay for refitting (on receipt of the faulty part/tap, once inspected and deemed faulty) up to a maximum defined cost.
- The provision of services under the guarantee neither extends the term of the guarantee nor sets in motion a new guarantee period. The guarantee period for spare parts fitted ends with the expiry of the guarantee on the appliance as a whole. The guarantee remains effective from the date of purchase.
- On the occasion that a product is over 2 years old and is considered to be beyond repair, or uneconomical to repair, then we will offer a replacement appliance and charge an appropriate monetary offset in respect of the period of use already enjoyed.
- Guarantees apply in the UK and Southern Ireland only.

What is not covered

- Transport damage for which CDA is not responsible.
- Improper installation and assembly.
- Improper use including where an appliance has been used in a non-domestic environment, or poor maintenance, or failure to observe the operating instructions.
- Faults due to accidental damage or misuse.
- Damage caused by the appliance coming into contact with unsuitable materials.
- Claims in respect of compensation for consequential loss, except where such liability is legally mandatory.
- Consumables and cosmetic parts such as glass, bulbs, seals, fuses, filters, external hoses, cosmetic parts, baskets, trays, burner caps, burner bases etc.
- Damage to, or during, the replacement of any light bulbs or removable parts of glass and plastic.
- Gas leaks not related to a CDA appliance.
- TH101 3-in-1 instant hot water tap is guaranteed for 2 year parts and 2 year labour.

Details of extended warranties are available on request.

This table shows where the guarantee is restricted due to non-domestic conditions:

	5 year parts, 2 year labour	2 year parts, 2 year labour	1 year parts, 1 year labour
Normal domestic sale and use	✓		
Rental or service apartment (non-students)		✓	
Students (communal living and non-communal) not new build		✓	
Students (communal living and non-communal) new build		✓	
Students (non-communal) one student per kitchen	✓		
Semi-commercial e.g. school domestic science lab			✓

E & O E • ALL DIMENSIONS AND ILLUSTRATIONS ARE PROVIDED FOR GUIDANCE ONLY. CDA RESERVE THE RIGHT TO CHANGE SPECIFICATIONS WITHOUT PRIOR NOTICE.
